### ACBRKT-DCKLITE

*Mounting Bracket with 2" x 2" Tube*

### ACLITE-SQ

*Solar Dock Lite - Fit 2" x 2" Tube*

Solar Dock Lites are a great way to light up your dock at night. These lites are much brighter and have longer run times than most conventional solar lites. Use the bracket and lite combination to place anywhere on your dock. The lite will also mount on roll-in 2" x 2" post legs.
