

ORIGINAL OWNER'S LIMITED LIFETIME NON-PRORATED PRODUCT WARRANTY

Westech's vinyl fencing products are manufactured using quality raw materials and are produced with engineering excellence designed for years of maintenance-free performance. Westech warrants that these products will be free from defects in materials and manufacturing workmanship for the lifetime of the original owner of the property on which the products were originally installed. Westech further warrants that its products conform to the impact resistance and weathering standards established in ASTM Specification F 964 and color-hold guidelines in ASTM Specification D 4726, Appendix XI. When properly installed and used under normal conditions, these products will not peel, rot, blister, rust, flake, chip, crack, corrode, pit, abnormally discolor or be consumed by termites, solely because of defects in material, manufacturing, or exposure to salt spray from ocean air. If any product is determined by Westech to be defective, Westech will, at its sole option, repair or replace the product or refund the purchase price in accordance with the claims and remedies provisions set forth below. In the event of repair or replacement of a defective product, the Warranty shall apply to the repaired or replaced product for the balance of the Warranty period.

This Warranty is made exclusively to the named property owner who is the original purchaser of Westech products for (a) the full lifetime period (i.e. until death) of the purchaser in the event that the purchaser remains as owner and primary occupant of the residence on which the products were originally installed on an uninterrupted basis, or (b) 50 years (non-prorated) from the starting date of the original installation in the event that the original property owner/purchaser should no longer be the fulltime resident for any reason. The lifetime feature of the Warranty is intended to apply to individual homeowners only. Products purchased for commercial use or purchased by, or installed upon property owned by, corporations, government agencies, partnerships, trusts, religious organizations, schools, condominiums or cooperative housing associations, or installed on apartment buildings or any other type of building or premises not used by individual homeowners as their residences, are warranted for fifty (50) years from the starting date of the original installation of the products.

CONDITIONS NOT COVERED BY THIS WARRANTY

This Warranty covers only the specified damages arising solely from defects in the manufacture of Westech fencing products. It does not provide protection against any failure, defect or damage caused by situations and events beyond normal exposure conditions, including but not limited to: faulty or improper fabrication or installation; movement, distortion, collapse or settling of the ground or structure or failure of the structure (including foundations and walls) on which the products are installed; negligence, accidental or intentional acts of damage, misuse, abuse, improper or failure to provide reasonable and necessary care of the product; normal and uniform weathering of the surface, normal chalking, discoloration or fading

due to exposure to sunlight, extremes of weather; mold, mildew, harmful chemicals, vapors or acid rain, or atmospheric pollution; impact of foreign objects, fire, wind, flood, lightning, earthquake, hail or other acts of God; or, the installation of accessory components or competitive products which are incompatible with Westech products. This Warranty covers only unpainted products and is void if any paint, stain, varnish, sealer or other finish has been applied to the products.

All products will experience some discoloration when exposed to the elements for a sustained period. Normal weathering occurs as exposure to ultraviolet light and extremes of weather and atmosphere causes any surface to experience gradual and uniform appearance changes such as chalking, fading, or accumulating dirt or stains. Degrees of weathering vary depending on geographical location, air pollution, exposure and other factors. Westech warrants that its products will "weather" in a uniform manner consistent with the weathering standards established in ASTM Specification F 964. Any weathering change that occurs on a specific exposed face of the product in a manner that varies from panel to panel producing an uneven look will be considered a defect. Color or gloss disparities arising from products having been installed in different years or involving the installation of accessories or competitive products which are incompatible with Westech products will not be considered a defect.

Westech's ranch fencing profiles are engineered for superior durability and years of maintenance-free performance and are suitable for the containment of livestock. However, these products are not designed to withstand the physical abuse inflicted by aggressive or spirited animals determined to break through the fence. Products damaged by contained livestock will be evaluated for impact performance in compliance with the testing protocol set forth in ASTM Specification F 964, subsection 6.3. Products found to be in compliance with this performance standard will not be eligible for repair or replacement under this Warranty.

REGISTRATION OF WARRANTY AND TRANSFERABILITY

This Warranty shall be valid only if, and after, the attached Warranty Registration Card is completed, signed by the original purchaser and installing contractor, and returned to Westech within 30 days after completion of installation of the products. The registered Warranty is transferable by the original property owner to any subsequent owner(s) of the property where Westech products were installed, provided each subsequent owner retains the original or a copy of the original bill of sale and Warranty card. Upon transfer to any subsequent owner(s), the Warranty converts to a 50-year, non-prorated Limited Warranty commencing with the starting date of the original installation of the products.

WARRANTY REGISTRATION CARD

To register your product warranty please complete and sign, (where applicable) and mail to Westech's Warranty Registration Department.
