EXCEEDING YOUR EXPECTATIONS THROUGH SUPERIOR WORKMANSHIP AND DESIGN

Pier Pleasure canopy over boat on track system.

Track system not a Pier Pleasure product.

Freestanding Canopies

Pier Pleasure's canopies are an excellent solution to protecting your marine investment from constant sun exposure, wind and driving rains. Cracking, fading and peeling not only takes away from the look, comfort and function of your boat, it reduces the value of your investment.

A freestanding canopy frame will allow you to use Pier Pleasure's canopies over track systems and pontoons with underdeck lifting kits. Also, freestanding canopies can be used to cover boats moored in a slip.

Freestanding Canopy Kit includes the following items:

- Augers and galvanized pipes to secure canopy frame to the lake bottom or ground.
- Adjustable arms to position the canopy frame at the height you desire.
- Canopy frame and choice of canopy tarp.

Keeping Your Investment Covered

Pier Pleasure offers a strong, all-welded frame with a sliding end that adjusts for easier tarp installation and removal. The tarp is secured in place by a continuous elastic shock cord and s-hooks, which make for simple installation and removal.

There are two choices of canopy tarps available. Pier Pleasure offers SeaMark™ Marine Fabric, a beautiful, colorfast Sunbrella® fabric that is waterproofed by combining the fabric with a textured marine grade vinyl backing. SeaMark™ has been a favorite of Pier Pleasure customers due to its beautiful appearance and durability. Also, Pier Pleasure offers a high-grade 18-ounce vinyl.

Pier Pleasure's canopy frame shape, unique sliding end and choices in canopy tarp materials combine to provide you with excellent boat protection that will look beautiful on your shoreline.

Also available is our freestanding canopy frame that allows you to use Pier Pleasure's canopies over track systems and pontoons with underdeck lifting kits.

Canopy Skirt Extensions

Skirt Extensions for the canopy tarp will provide additional protection for your boat from the sun, wind, rain and other damaging elements.

Additional depth with taller height allows entering the lift without lowering the tower. The tarp skirt is secured to prevent blowing in the wind.
